

GSMC AGENDA 7/16
0730-1330 hrs
HQ DMA Fairfax, VA.
Conf Room 1S16

0730

I. Introductions of new GSMC members and guest speakers
Gordon Ferrari, DMA(PRS)

0740

II. Security procedures/PERM CERTs for GSMC & MJIB
Gordon Ferrari, DMA(PRS)

- Handout will be provided with status of all GSMC and MJIB PERMCERT. Those MJIB members not PREMCERTed will need to be before the mid-Sept meeting.

0750

III. Brief recap of MJIB 6/15 results
Gordon Ferrari, DMA(PRS)

- CMS and ATO issues; ATO Interoperability Working group JMNS efforts and schedule update based on the 23 Jun afternoon session.

Capt John Boylan(PRW)

- DMA 16 Jun 93 letter to AF regarding CMS Support
- 55:1 CADRG Prototype status/schedule

0830-1200

VI. Digital MC&G Imagery Standardization - CIO Briefings

0830

1. US Imagery Architecture
Bob Farrel, C/ASD Arch Branch, CIO

- Will discuss the current CIO architecture plans which include dissemination networks. Archive imagery, MC&G data and targeting.

0915

2. National Imagery Transmission Format Standards (NITFS and Secondary Imagery Dissemination Systems (SIDS)
Bill Puckett, CIO, & Chairman, NITFS Technical Board (NTB)

- Will brief on the NITFS, status with DISA, applications, and MC&G community development of NITFS extensions for MC&G imagery.

1000

3. Common Data Directories
Briefer to be announced later

- How to take all the imagery, store and retrieval with a common directory. Data elements and modeling.

1030-1200

4. DPPDB, ADRI and [MSI-TBD] digital MC&G product development and NITFS
Several DMA PR/RE briefers

- What DMA has done with DPPDB prototype and NITFS
Lt Col Dolf Nation, DMA(PRW)
Mr. Paul Pals, DMASC

- ADRI and NIFTS (the translator being developed by TRIFID)
Mr. Ron Davis, DMASC(DG)
Mr. Merle Biggins, DMA RE

- Approach to a Joint Standard
(Light discussion on Formats, media, performance standards)
 - Are they issues for the GSMC to pursue?

ALL

1200-1230

LUNCH

1230

V. Geospatially Referenced Information (Overlays)
Gordon Ferrari, DMA

- Short briefing on the issue (similar to the one given at the ISCWG 3 Jun 93; issue paper will be provided to membership. Update on the activities with DISA.

1300

VI. GSMC meeting schedule (e.g., every week - same day, same time?, every other week?) Plan to discuss so we can lay out a schedule

1330-1400

VII. Future items/topics (bring some suggestions)

- a. Standard DPPDB, ADRI, and MSI data compression techniques and NITFS'JPEG
- b. MJIB ACTION: Develop Service migrations plans for CADRG and other jointly approved data formats and report by mid-Sept.
- c. Draft GSMC Charter. Review the DISA draft and prepare to discuss.
- d. DMA/DISA/C3 I data element standardization activities. (current FACC work, C3I funding, role of the GSMC and MJIB), DMA Data Admin coordination plans for element reviews.
- e. Modeling and Simulation. 28-29 July DMSO meeting in Alexandria, VA awareness MC&G standards issues to be addressed
- f. Hierarchy of Standards - Ad Hoc Team. Also, lets re-examine the needs for sub-ordinate working groups.
- g. Presentation of NATO DIGEST work.
- h. Digital Product Reviews. When to start? Which ones first? What GSMC procedures need to be developed to approach in a coordinated manner?
- i. MJIB Admin activities sequence.
